

Health Science Immersion Program (HSIP)

9 Saturday Afternoons:
Jan 4th to March 1st

(12 - 3PM OR 3 - 6PM PST)

LOCATION: ZOOM VIRTUAL CLASSROOM

Are you interested in exploring the health sciences, medical care and science research? HSIP is an accessible, enriching and fun way to learn more this Winter!

Interested?

More Info & the Application are at www.impactinternships.org/hsip

Application Deadline:
Sunday, December 15th

During HSIP, we'll explore science education, medical research and healthcare opportunities in the health sciences field. We'll hear from health professional speakers such as a research professor, dentist and medical student. During a group research article project we'll collaborate on topics such as cancer research and neuroscience. We'll also engage in clinical case studies, exploring topics such as asthma and diabetes. Throughout HSIP we'll take part in career pathway workshops like the medical school road map. Throughout the program, you'll learn how to prepare for a future career in the health sciences. Since 2019, over 1,315 high school students have taken part in the first 37 HSIP sessions. All current high school students (grades 9 -12) with an interest in the health sciences are encouraged to apply!

- **Engage in lectures from speakers including Science Professors/ Graduate Students about their research as well as health professionals such as a dentist, medical resident physician, respiratory therapist, medical communications manager & pharmacist about their careers**
- **Prepare for college admissions in our facilitator led workshops and engage in our career options and pathways workshops**
- **Work collaboratively on a small group research project to build science inquiry and public communication skills**
- **Be Part of a Community That Values Learning and Mentorship!**
